# SPOTLIGHTS

## RESTORING *Our* EARTH

**S**aturday, April 22 is Earth Day!  
The nationally-recognized theme of the event's 30-year anniversary is to celebrate the nation's environmental awareness and successes. Celebrate the day by learning more about the unique wildlife habitat that surrounds us at the Rocky Mountain Arsenal.

Interested in saving money while attracting wildlife? Come join us at the Visitor Center this Earth Day to learn how to use native plants in your home landscape to ease your water bill and your weekend yard work! Take a short walk and see native prairie plants and animals. Your kids can take home a free pack of native seeds and start their own earth-friendly wildlife garden. The celebration begins Saturday, April 22, 1:00-3:00 p.m. [Reservations are required-extension 5232.](#)
